

## ***Usability Engineer Trainee***

Senseg is acclaimed to be one of the most exciting new technology companies in Finland, with coverage in media such as Venturebeat, Techcrunch and also in Youtube. Senseg has developed a breakthrough technology, E-Sense, that provides touch sensations without mechanical movement using a field effect. Its application areas include touch screens, mobile devices, and gaming.

Senseg is looking for a part-time usability engineer or trainee to help us shape the user experience of our solutions in our Helsinki office at Pitäjänmäki.

### **We expect:**

- You to have a background of studies in usability/ user-centered design
- You to be creative and have an artistic flavor
- You to be enthusiastic about working with new technologies
- You to be able to bring ideas into practical implementations

### **We offer:**

- Real industry experience
- International atmosphere
- Flexible working hours
- Dynamic environment of a small company with fascinating technology

For those who are interested and qualify please send a brief description of yourself **before 2<sup>nd</sup> of September 2009** to [jobs@senseg.com](mailto:jobs@senseg.com)
